

COMPANY PROFILE

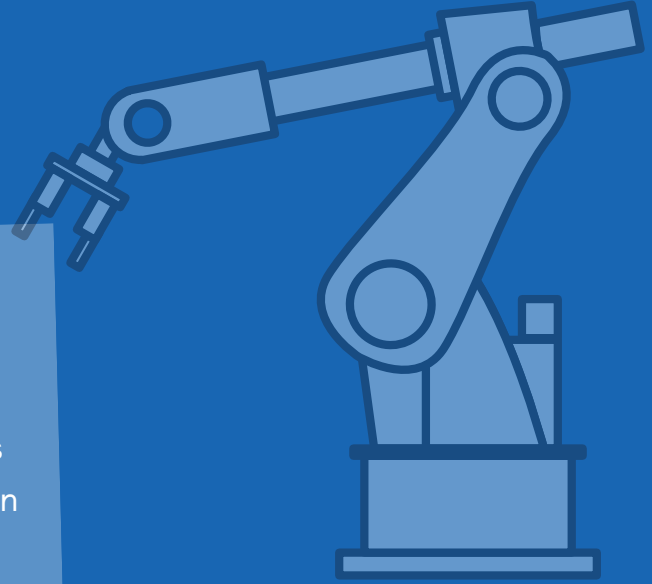

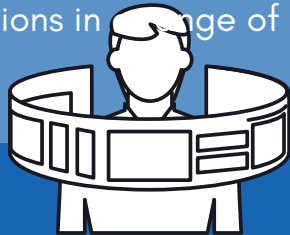

# ABOUT GIANT BEATS®

**Giant Beats® Technology** is a leading indigenous 360-degree ITC company that provides top-quality goods and services. Founded in 2005 as a small bedroom business serving a small community, we have since grown to offer enterprise solutions to both the public and private sectors.

We work closely with our clients to offer guidance on using information technology to achieve business objectives and solve technical problems.

Our team of experts is highly qualified, well-trained, and always ready to provide innovative solutions in a range of IT fields.

## CORE VALUES

### VISION

We envision a future where technology is seamlessly integrated into every aspect of business and society, and we are dedicated to driving that progress forward.

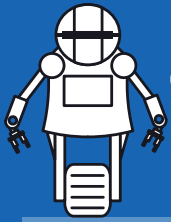

Innovation  
Teamwork  
Integrity  
Adaptability  
Customer focus

### MISSION

Our mission at Giant Beats® Technology is to be the leading provider of innovative and reliable technology solutions for businesses and organizations around the world.

## OUR CORE BUSINESS

### GIANT BEATS® TECHNOLOGY

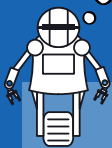

Giant Beats® Technologies handles core I.T related products and services, from the complete turnkey deployment of enterprise solutions to home and small business solutions.

Information and communications is a fundamental component for building a successful enterprise in today's fast changing world and we understand the importance of overcoming the obstacles in effective usage of Information Technology.

### GIANT BEATS® STUDIO

Giant Beats® Studio is our creative engine room that caters for our clients' innovative needs in design, production, multimedia ,and digital marketing. Whatever your creative needs may be in the area of audio production for Film, Radio or TV we have a team of producers that are ready to work closely with you to achieve your desired sound. And for some clients that don't have the patience or the luxury of time to have original music written, we have a rich library of licensed audio recordings in various genres for them choose from.

### GIANT BEATS® CONSULTANCY

Our professionals are well certified, adequately trained and are always glad to showcase cutting-edge solutions in varying fields of Information Technology. We work to improve the structure and efficiency of Information Technology systems for our clients and implement cost-cutting solutions where necessary.
